

[EN] You Might As Well Forget Him

You Might As Well Forget Him

Walk the streets at night, looking for someone

Looking for someone you'll never find

Whoa, darlin', you might as well forget him

For he's gone, he said his last goodbye

I wish you had listened when you first met him

I tried to make you realize

He didn't feel the same for you

But still you thought he was your guy

Now you know the pain (know the pain)

Oh, that love can bring (love can bring)

He's gone, you might as well forget him

Walk the streets at night (walk, walkin' the streets)

Looking for someone (walk, walkin' the streets)

Looking for someone (looking, looking for someone)

You'll never find (you'll never find)

Whoa, darlin' (darlin'), you might as well forget him (forget him)

For he's gone, he said his last goodbye

Now you know the pain (know the pain)

Oh, that love can bring (love can bring)

Now he's gone, you might as well forget him

Might as well forget him (forget, forget)

Oh, forget him (forget, forget)

Yeah, forget him (forget, forget)

Oh, forget him (forget, forget)

forget him (forget, forget)

Mm, forget him (forget, forget)

Hey! Forget him (forget, forget)

Oh, forget him (forget, forget)

Ooh (forget, forget)

Oh, forget him (forget, forget)
