

## [EN] Agent X

You never say what you feel,

You're like a cog in a wheel

You better be quiet, never rebel or riot

Could it be that you are free?  
When their eyes can see

What you're doing all day long,

Whistle hum or sing a song

Don't start to run, they've got a gun

Whatever you say,

Whatever you do,

Agent X is watching you  
Whatever you say,

Whatever you do,

Agent X is watching you

You come home early, you come home late,

There's only someone who will wait

Someone knows if you're for or against,

What you think and what you say  
They try to look inside your head,

You're in a cage until [you're dead](#)

You never say what you feel,

You're like a cog in a wheel

Whatever you say,

Whatever you do,

Agent X is watching you  
Whatever you say,

Whatever you do,

Agent X is watching you

Don't be afraid,

Try to escape  
Don't be afraid,

Try to escape

Whatever you say,

Whatever you do,

Agent X is watching you  
Whatever you say,

Whatever you do,

Agent X is watching you

Whatever you say,

Whatever you do,

Agent X is watching you  
Whatever you say,

Whatever you do,

Agent X is watching you

Whatever you say,

Whatever you do,

Agent X is watching you  
Whatever you say,

Whatever you do,

Agent X is watching you.
